As part of the Warrens Traffic Safety Improvement Project, the D’Arcy Scott Roundabout has been reconfigured. The previous circular shape has been changed to an oblong one with different curved sections. In addition, a fifth leg has been added to the roundabout, resulting in three legs now being in close proximity to each other. Motorists must therefore adjust their steering and reduce their speed as they move through the roundabout. Motorists, you are reminded to use your vehicle rear and side mirrors to enable you to see all around, as well as the vehicle indicators to indicate your intentions to the other road users, particularly to convey the direction in which you wish to travel. Always think ahead and plan your route early so that you can select the correct lane for your movement. Be on the lookout for all road users, especially pedestrians attempting to cross the various legs of the roundabout.

The following information indicates the way in which the roadway will be marked and the correct lane usage, particularly from the Ronald Mapp and ABC Highway approaches. Roadside signage will also be installed as additional guidance to road users.

**1**

**The ABC Highway, University of the West Indies (UWI) Leg**

Use the **left lane** to turn left onto the Ronald Mapp Highway ONLY.

Use the **center lane** to move through the roundabout in the left lane to either turn left into the Industrial Estate, or to continue on the ABC Highway towards the Belle, exiting into the left lane of the Highway.

Use the **right lane** to move through the roundabout in the right lane to either continue onto the ABC Highway towards the Belle, or still moving through the roundabout in the right lane, to go to Warrens South - on the road leading to the Government Offices - exiting onto the right lane of this road.

---

**2**

---

**The Ronald Mapp Highway Leg**

The **left lane** is a dedicated left turn lane into the Industrial Estate ONLY. It is not to be used for any other movement.

Use the **center lane** to move through the roundabout in the left lane to exit onto the ABC Highway towards the Belle, exiting into the left lane on the ABC Highway.

Use the **right lane** to move through the roundabout in the right lane to either exit onto the ABC Highway towards the Belle, exiting into the right lane, or to go to Warrens South - on the road leading to the Government Offices – exiting into the right lane of this road, or to the ABC Highway towards UWI, exiting into the right lane.

---

**3**

**The ABC Highway – Belle Leg**

Use the **left lane** to turn left to exit to Warrens South ONLY.

Use the **center lane** to continue onto the ABC Highway towards UWI, keeping in the roundabout left lane and exiting into the Highway left lane.

Use the **right lane** to move through the roundabout in the right lane to either exit onto the right lane of the ABC Highway towards UWI, or continuing in the roundabout right lane, to exit onto the Ronald Mapp Highway, using your indicators to select your exit lane.
